Cape Cod Regional Transit Authority Message from the Administrator

January 2019

The Cape Cod Regional Transit Authority will be initiating site improvements at the Hyannis Transportation Center over the next several months to better serve our patrons. Improvements include upgrades to the parking lot area; relocating and expanding bus bay and parking lot canopies; and adding solar panels to the canopy structure rooftops. The “carbon footprint” reducing solar project component of the site work is being constructed at no cost to the CCRTA and will produce 320 kilowatts that is expected to offset 93% of the present energy demands over the next 25 years. As a further customer convenience, the canopies will include a protective rooftop over the bus bays and pedestrian walkways.

The CCRTA will be providing regular updates of any alternate pedestrian and/or bus patterns on our website and social media, as well as posted signs throughout the Hyannis Transportation Center property. We ask that for everyone’s safety you stay within these marked pedestrian areas.

We would like to thank you for your patience during this important construction improvement project.

Thomas S. Cahir, CCRTA Administrator
