

Cape Cod RTA is working closely with our customers on the response to COVID-19. The safety and wellbeing of our passengers and our employees is our foremost consideration. We are taking all precautions with the additional daily cleaning and disinfecting of our vehicles where warranted and informing our customers and employees of the outbreak. Signage has been posted throughout the Hyannis Transportation Center and we have Instituted a daily plan checklist, posted for public view, for the twice a day disinfecting of HTC lobby area doors, benches, and bathroom. We encourage all passengers to follow the advice of the CDC and local public health officials and ensure that they utilize hand sanitizer and wash their hands frequently to prevent the spread of the virus. Customers who have been in contact with the virus are encouraged to stay at home and use medical transportation for medical emergencies.

**COVID 19**  
CORONAVIRUS DISEASE

# STOP THE SPREAD OF GERMS

**Help prevent the spread of respiratory diseases like COVID-19.**

- Avoid close contact with people who are sick.** (Illustration: Two people shaking hands, with a person coughing nearby and virus particles floating in the air.)
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.** (Illustration: A person coughing into a white tissue.)
- Avoid touching your eyes, nose, and mouth.** (Illustration: A person's face with a red 'no' symbol over their hand near their face.)
- Clean and disinfect frequently touched objects and surfaces.** (Illustration: Hands being washed with soap suds.)
- Stay home when you are sick, except to get medical care.** (Illustration: A house with a bed icon inside a circle.)
- Wash your hands often with soap and water for at least 20 seconds.** (Illustration: Hands being washed with soap suds.)
